INVITATION TO QUOTE (Advertisement)

WORKS

INVITATION TO QUOTE

Date: 06 April 2026

Project Title
Aseptic Ampoule Sterile Filling Line (Isolator) – Hardware & Services (Training Example)

Source of Funding (loan/credit/grant etc)
World Bank Loan (fictional example for classroom use only)

Contract Name
Design, Supply, Installation, Commissioning and Qualification Support of an Aseptic Ampoule Filling Line with Isolator

Contract Ref
RFQ-WORKS-ASEP-AMP-ISO-2026-001

1. This project is financed by the World Bank through the above loan/credit/grant [select one or more as appropriate]. The Ministry of Health – Procurement Directorate invites sealed quotations from eligible bidders for the design, supply, delivery, installation, commissioning and qualification support of an aseptic sterile filling line for liquid injectables in glass ampoules, including an isolator-based Grade A filling zone, and related training and documentation.
2. Eligible bidders should have experience in the delivery and qualification support of at least one aseptic ampoule (or equivalent aseptic) filling line of comparable complexity during the last three years and should provide evidence of financial resources to successfully complete the Works.
3. A complete set of Request for Quotation (RFQ) documents in English will be provided to interested eligible bidders upon the submission of a written application to the address below.
5. Quotations must be submitted to the address below on or before 14:00 (local time), 20 May 2026. Late quotations may be rejected.
6. The address referred to above is:
Attn: Ms. Naledi Mbeki, Senior Procurement Officer
Ministry of Health – Procurement Directorate
25 Independence Avenue, Capital City, P.O. Box 1142, Republic of Exampleland
Tel: +000 21 555 0134
E-mail: procurement.rfq@health.gov.example

REQUEST FOR QUOTATION (RFQ)
WORKS

REQUEST FOR QUOTATION (RFQ-WORKS)
[use letterhead paper of the Employer]

Date of Issue of RFQ: 06 April 2026.
Project Title: Aseptic Ampoule Sterile Filling Line (Isolator) – Hardware & Services (Training Example)
Source of Funding (loan/credit/grant no.): WB-LN-EXM-2026-01 (training example)
Contract Name: Aseptic Ampoule Filling Line with Isolator – Supply, Install, Commission, IQ/OQ Support
Contract Ref: RFQ-WORKS-ASEP-AMP-ISO-2026-001

To: Aseptix Engineering & Pharma Systems Ltd. (fictional)
Dear Bidder,

1. Ministry of Health – Procurement Directorate hereby invites you to submit a quotation for the following works: design, supply, delivery, installation, commissioning and qualification support for one (1) aseptic ampoule filling line for liquid injectables, covering ampoule washing, depyrogenation (as applicable), tunnel/sterilization integration, aseptic filling and sealing, in-process controls, an isolator-based Grade A filling environment, FAT/SAT, and training for operators and maintenance staff.

2. To assist you in the preparation of your price quotation we enclose the necessary Specifications, Bill of Quantities (BOQ) (Employer selected option), Drawings, and Form of Contract.

3. You may submit the signed Form of Quotation (including the priced BOQ) by hand delivery, post or electronically at the following address:
Attn: Ms. Naledi Mbeki (Bid Receiving Officer)
Ministry of Health – Procurement Directorate
25 Independence Avenue, Capital City, P.O. Box 1142
Electronic submission (permitted): bids@health.gov.example

4. You must have experience as a contractor in the delivery, installation and qualification support of at least one aseptic filling line of the nature and complexity equivalent to the works included in this RFQ over the last three years, and provide evidence of financial resources to successfully complete the works of this contract.

5. Each bidder shall submit only one quotation. All quotations submitted in violation of this rule shall be rejected.

6. In evaluating the quotations, the Employer will determine for each quotation the evaluated price by adjusting the price quotation by making any correction for any arithmetical errors as follows:

(a) where there is a discrepancy between amounts in figures and in words, the amount in words will govern;
(b) For Quotations with BOQ: where there is a discrepancy between the unit rate and the line item total resulting from multiplying the unit rate by the quantity, the unit rate as quoted will govern;
(d) if a Bidder refuses to accept the correction, their quotation will be rejected.

7. Your quotation shall be valid for a period of forty five (45) days from 20 May 2026.

8. For Quotations with BOQ: Your quotation in English language shall be for the whole works and based on the unit rates specified in the Bill of Quantities for a fixed unit rate contract. Currency of quoted prices and payment shall be in USD. The quotation shall include all duties, local taxes and other levies payable by the contractor in accordance with the local laws.

9. The Employer will award the contract to the Bidder whose quotation has been determined to be substantially responsive to this RFQ, has offered the lowest evaluated price quotation and is qualified to do the Works.

10. The terms and conditions of contract are attached to this RFQ.

11. Your quotation should be submitted by 14:00 (local time) on 20 May 2026 to bids@health.gov.example (or physical address in paragraph 3).

12. Further information can be obtained from:
Ministry of Health – Procurement Directorate
25 Independence Avenue, Capital City
Name of contact person: Mr. Daniel Okoro, Project Engineer (Sterile Manufacturing)
Telephone: +000 21 555 0199
E-mail: daniel.okoro@health.gov.example

13. Please confirm by e-mail to the contact provided in paragraph 12 above, the receipt of this RFQ and whether or not you will submit the price quotation(s).

Sincerely,

_____
(signature)
Dr. Amara Ndlovu
Director, Procurement Directorate

LIST OF CONTRACTORS TO ISSUE RFQ
WORKS

No.
Name of Contractor
Year of Business Registration

Previous Experience
Value of contracts previously completed
Justification for Selection

1
Aseptix Engineering & Pharma Systems Ltd. (fictional)
2014
Turnkey aseptic line supply; isolator integration; executed FAT/SAT packages and IQ/OQ support
USD 4.9M; USD 6.3M
Meets technical scope; local service partner; references for aseptic lines

2
AmpuSeal Technologies S.A. (fictional)
2010
Ampoule washing + filling/sealing lines (1–10 mL) for injectables; utilities and HVAC interface coordination
USD 3.8M
Direct ampoule specialization; proven sealing tech; documentation maturity

3
IsolatorQ Pharma Projects GmbH (fictional)
2008
Isolator systems and decontamination cycles integration; aseptic risk controls; training and qualification support
USD 2.6M
Strong isolator/CCS competence; suitable for Grade A barrier delivery

ATTACHMENT 3-D
FORM OF CONTRACT: RFQ FOR WORKS

Name of Country: Republic of Exampleland (training example)
Project Title: Aseptic Ampoule Sterile Filling Line (Isolator)
Source of Funding (loan/credit grant no.): WB-LN-EXM-2026-01 (training example)
Contract Name: Aseptic Ampoule Filling Line with Isolator – Supply, Installation and Qualification Support
Contract Reference Number: RFQ-WORKS-ASEP-AMP-ISO-2026-001

This Contract is made this 10th day of May 2026 between Ministry of Health – Procurement Directorate, Republic of Exampleland on the one part (hereinafter called "the Employer") and Aseptix Engineering & Pharma Systems Ltd. (fictional) (hereinafter called "the Contractor") on the other part.

Whereas the Employer has called for quotations for RFQ-WORKS-ASEP-AMP-ISO-2026-001 ("the Works") and the Contractor has submitted a quotation for the Works and the Employer has accepted the Contractor's Quotation dated 08 May 2026 for the execution and completion of the Works and the remedying of any defects therein.

Now this Contract witnesses as follows:

1. The Contractor hereby covenants to execute the Works fully detailed in the drawings, technical specifications and Bill of Quantities (BOQ) included in the Contractor's Quotation (Annex 1) which constitute an integral part of this Contract in a professional and workmanship like manner in accordance with the following Conditions of Contract:

(a) Remedy all defects within 7 working days of notification by the Engineer in charge Mr. Daniel Okoro, during the period of execution of the contract and thereafter for defects notified within the defect liability period.
(b) The Employer reserves the right to terminate the contract due to unsatisfactory performance 10 days after giving a written notice.
(c) All material and construction equipment on site, temporary works, and the Works shall be deemed to be the property of the Employer if the contract is terminated due to default by the Contractor.
(d) The Contractor will in all cases abide by the directions of the Engineer in charge.
(e) The Contractor shall submit to the Engineer in charge, a program within 7 days after signing the contract describing general methods and schedule to complete the Works.
(f) The Contract completion period shall be 240 (calendar days) after signing of the Contract.
(g) In case of changes to the quantities in BOQ, the unit rates under the contract will be used to calculate the payment. For variations, the unit rates in the BOQ shall be used for similar items under variation. New items of work performed, under variation as ordered by the Engineer in charge, will be paid at mutually agreed rate/s and, in case of any disagreement between the Contractor and the Engineer in charge, the latter will fix the unit rates that will be binding on the Contractor.
(h) The Law governing the contract shall be the applicable laws of Exampleland.
(i) The Contractor shall be responsible for the safety of all the activities on the Site.
(j) During execution of the Works the Engineer in charge will carry out inspection of the Works at site to verify that the Works are executed by the Contractor in accordance with the specifications and required quality as per specifications.
(k) Either party may terminate the Contract by giving a 14 days' notice to the other for unforeseen events such as wars and acts of God such as earthquake, floods, fires etc.
(l) The Contractor is responsible for all taxes, duties, levies, customs duties, etc. in accordance with the laws of Exampleland which are already included in the unit rates or prices in the BOQ or AS, except VAT.
(m) Any disputes between the Employer and the Contractor arising under or in connection with the Contract shall be resolved amicably. In the event the dispute remains unresolved, either party may refer the dispute to arbitration in accordance with Exampleland Arbitration Law No: 12/2012 or jurisdiction at the Courts of Capital City.

2. In consideration thereof the Employer covenants to pay the Contractor the Contract Price of USD 6,420,000 (Six million four hundred twenty thousand United States Dollars) in the following manner and instalments:

For BOQ based contracts:
(A) An advance payment of 15 percent of the Contract Price will be paid upon the submission of an Advance Payment Bank Guarantee in the same amount and currency.
(B) Subsequent payments will be made based on monthly statements submitted by the Contractor...
(C) One-half of the 5% retention money will be paid to the Contractor on certification...
(D) Final contract value will be based on the actual quantities completed.
(E) The defects liability period will be 12 months after taking over of completed works by the Employer.

3. Inspections and Audits
3.1 The Contractor shall carry out all instructions of the Engineer in charge which comply with the applicable laws where the Site is located.
3.2 The Contractor shall permit... the World Bank ("the Bank") ... to inspect and/or audit...

4. Termination.
The Employer may terminate this Contract with at least ten (10) working days prior written notice...

5. Fraud and Corruption
If the Employer determines that the Contractor... has engaged in corrupt, fraudulent, collusive, coercive or obstructive practices...

In witness whereof the parties thereto have caused this Contract to be executed the day and year first before written.

ANNEX 1: SPECIFICATIONS
(Technical specifications should be incorporated in this annex)

Project Title: Aseptic Ampoule Sterile Filling Line (Isolator)
Contract Name: Aseptic Ampoule Filling Line with Isolator – Supply, Installation and Qualification Support
Contract Reference Number: RFQ-WORKS-ASEP-AMP-ISO-2026-001

1. Brief background
The Employer is establishing sterile manufacturing capability for essential medicines in sealed glass ampoules (e.g., analgesics, antibiotics, emergency medicines). The line is intended as a training example for procurement and will be specified to reflect a realistic GMP-oriented acquisition including documentation, FAT/SAT, and qualification support.

2. Description and location of the Works
Location: Exampleland National Pharma Park, Plot NF-07, Capital City Industrial Zone.

Scope includes (hardware + services):
- Detailed engineering: URS confirmation, line layout, utilities list, interface matrix, project schedule.
- Equipment supply: ampoule washer, depyrogenation & drying tunnel (as applicable to ampoules), aseptic filling machine with flame sealing (open flame or closed system per proposal), isolator (Grade A) with integrated decontamination cycle, conveyors and transfer systems, basic in-process controls.
- Utilities tie-ins and installation at site (employer-provided utilities to agreed connection points).
- Automation/HMI with audit trail features appropriate for training demonstration (user roles, alarm log, event log).
- FAT at Contractor works and SAT at site.
- IQ/OQ documentation support and execution assistance.
- Training: operators (2 shifts), maintenance technicians, and basic aseptic behavior training for isolator operations.
- Spares: 24-month critical spares and recommended consumables list.

Indicative performance targets (training example):
- Formats: 1 mL, 2 mL, 5 mL and 10 mL Type I glass ampoules.
- Output: up to 12,000 ampoules/hour (format dependent).
- Filling accuracy: to be proposed by bidder; the Employer expects compliance with common sterile filling practice and repeatability suitable for routine production.
- Contamination control: Grade A within isolator at point of fill; facility provides Grade C/D background room classification as applicable (to be confirmed by site).
- Decontamination: isolator integrated cycle with documented parameters and printouts/exportable records.

3. Standards and Specifications
- GMP-oriented design and documentation aligned to contamination control strategy concepts for aseptic processing.

- Product contact parts: 316L stainless steel; elastomers suitable for pharma process use.
- Surfaces and cleanability appropriate for sterile area equipment.
- Documentation: manuals, recommended maintenance plan, calibration list, as-built drawings list, spare parts list, and executed FAT/SAT reports.
- Safety: guarding, interlocks for isolator access, emergency stops, and safe handling guidance for sealing process (heat/flame) with risk assessment documentation.

ANNEX 2A: BILL OF QUANTITIES

[To be completed, signed and submitted by the Bidder as an attachment to the signed Form of Quotation]

Project Title: Aseptic Ampoule Sterile Filling Line (Isolator)
Contract Name: Aseptic Ampoule Filling Line with Isolator – Supply, Installation and Qualification Support
Contract Reference Number: RFQ-WORKS-ASEP-AMP-ISO-2026-001

08 May 2026 (Date)

To: Ministry of Health – Procurement Directorate (Employer's Name)
25 Independence Avenue, Capital City, P.O. Box 1142 (Employer's Address)

We offer to execute the Aseptic Ampoule Filling Line with Isolator (RFQ-WORKS-ASEP-AMP-ISO-2026-001) in accordance with the Form of Contract and Specifications accompanying your Request for Quotation (RFQ) for the Contract Price of USD 6,420,000 (Six million four hundred twenty thousand United States Dollars), excluding VAT. We propose to complete the Works described in the Contract within a period of 240 calendar days from the Date of Signing of the Contract.

This Quotation and your written acceptance will constitute a binding Contract between us. We understand that you are not bound to accept the lowest or any Quotation you receive.

We hereby confirm that this Quotation complies with the Validity of the Quotation required by the RFQ.

ATTACHMENT TO FORM OF QUOTATION (delete if not applicable)
DETAILS OF BIDDER'S QUALIFICATIONS TO PERFORM THE CONTRACT
(refer paragraph 4 of the RFQ)
[To be completed, signed and submitted by the Bidder as an attachment to the signed Form of Quotation]

1. Experience as a works contractor (over the last three years):
Contract No. 1
Contract title: Ampoule filling line (1–10 mL) with isolator integration for emergency injectables
Description of the Works (include the description, nature and complexity similar to the works of this RFQ):
Supply and integration of ampoule washer, drying tunnel, aseptic filler/sealer, isolator with VHP cycle; FAT/SAT; IQ/OQ documentation support; operator training.
Contract period: Feb 2024 – Nov 2024
Final Contract Value: USD 6.0M

Any other details: Included format parts for 1/2/5/10 mL and decontamination cycle reporting.

Contract No. 2
Contract title: Isolator decontamination cycle optimization and requalification support
Description of the Works:
Cycle development support, sensor calibration alignment, executed OQ template updates; training for isolator operation and glove integrity concepts.
Contract period: Mar 2025 – Jun 2025
Final Contract Value: USD 0.8M
Any other details: Reduced cycle time while maintaining acceptance criteria (client-provided).

Contract No. 3
Contract title: Controls and batch record data integration for aseptic line (non-PCS)
Description of the Works:
HMI user management, audit trail configuration, alarm/event reporting; documentation pack updates; site SAT support.
Contract period: Sep 2025 – Dec 2025
Final Contract Value: USD 1.1M
Any other details: Included training materials and maintenance troubleshooting guides.

Contract No. .....

2. Availability of Financial Resources:
The winning bidder should have adequate sources of finance to meet the cash flow requirements for at least 30% of the value of the works, in addition to requirements for works currently in progress.

Source of financing
Currency and Amount
1. Corporate cash reserves (audited statement available on request) – USD 2,400,000
2. Committed revolving credit facility (Bank of Exampleland) – USD 3,200,000
3. Supplier credit terms for long-lead equipment – USD 1,000,000
4. Performance bond line availability – USD 750,000
